Chandru points to a picture on the chart

Chandru: What is the name of this temple?

Shopkeeper: This is the very famous Thanjavur PeriyaKovil also known as Brihadeeshwara Temple.

Chandru: Who built it?

Shopkeeper: It was built by Raja Raja Cholan. Do you know that the Nandi inside the temple was built using a single stone?

Chandru: Is it?

Shopkeeper: Yes. Another interesting fact about the temple is that the shadow of the main temple does not fall on the ground.

Chandru: How wonderful! It is so interesting to see them. I would like to go there.
