Father: **Zinc** is called the **essential trace element** because very small amount of zinc is necessary for human health. Our body does not store excess zinc, it must be consumed regularly as part of the diet. Common food sources of zinc include **red meat**, **white meat** and **sea food**.

Son: What are the other uses of zinc?

Father: **Zinc oxide** is widely used in the manufacture of many products such as paints, rubbers, cosmetics, medicines, inks, batteries, textiles and electrical equipments.
