Son: What about when I am not well and go for a check-up to a doctor?

Father: That's a very good question, dear. Doctors may touch these parts while they are doing a check-up and either me or your mother are in the same room.

Daughter: Okay, dad.

Father: If someone touches you unsafely they might scare you to keep it as a secret. They might get you gifts that you don't tell anyone. But remember dear, you must always inform me or your mother about it.

Son: Yes, I will definitely inform you or mom.
