Mental Arithmetic:

Able to add and subtract single digit numbers and two digit numbers mentally:

1. In a tree planting ceremony, 6 coconut saplings and 5 neem saplings are planted. Find the total number of saplings planted.

2. There are 5 tender coconuts in a tree. If they pick 3 tender coconuts, then find the remaining tender coconuts?

3. 46 boys and 27 girls visited a park on Sunday. Find the total number of boys and girls who visited the park?

4. 50 pens are in a box. Out of which, 34 pens are given to the students. Find the number of pens left?

5. 70 balls are given to 7 persons. How many balls are given to each person?

6. 8 books can be arranged in a row. In how many rows can 48 books be arranged?

7. 10 pens can be kept in a box. How many boxes are needed to keep 100 pens?
