Unit 1

Our Environment

Learning Objectives

At the end of the lesson the students will be able to

- differentiate biotic and abiotic factors
- understand the interaction between biotic and abiotic factors
- understand balanced ecosystem
- understand the importance of planting trees

Q2G3N8

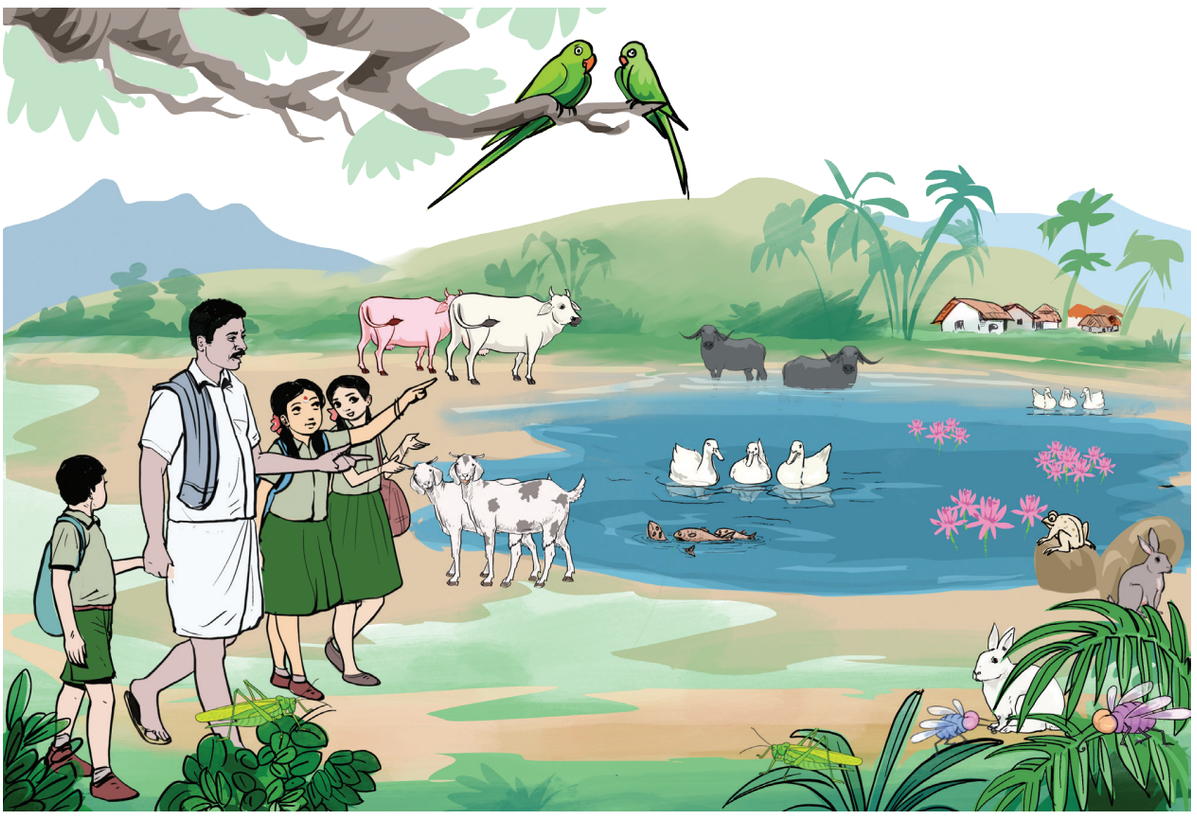

I. Environment - Introduction

(Yazhini and her friends are going to school with her father)

Yazhini : Hey! Look at the parrots! Where are they going, daddy?

Father : They are flying towards the pond. Now, they will settle on the trees.

Fathima : Uncle! Uncle! Can you please take us there?
