Write "M" for the morning and "E" for the evening activities.

Night

Vocabulary

moon, star, cool, night

Mother: "It is a lovely cool night. Let us have our dinner outside in the moonlight".

Kannan: "Why is the moon not as bright as the Sun?"

Kanmani: "I know why. The moon has no light of its own unlike the Sun. It gets it's light from the Sun".

Kannan: "I will tell you about the stars. See, there are **so many stars in the sky**. The stars shine at night. They have their own light. They look small because they are very far away".

DO YOU KNOW?

Owls and Bats are active at night.

Mother: "Come, it's getting late. Let us go to bed. Early to bed and early to rise is a good habit".
