- Some of our body parts are in pairs and some are single.
- You can fold your arm and your fingers, wherever there are lines. Try it.

- We experience different feelings like happiness, sadness, fear and anger.
- We show these feelings with our facial expressions.

Try making these expressions.

- **Connect the paired parts to the number 2 and the single parts to the number 1.**

- **Draw the facial expressions.**

DO YOU KNOW?

The giraffe has a long neck and the elephant has a long trunk.
