Most flowers bloom in the morning. However some flowers bloom at night. Examples are Jasmine, Water lilies, Tuberose, Cactus flower, Datura flower. Many of them have a lovely fragrance. Many are white in colour though some have attractive colours.

Jasmine (Malligai)

Water lily (Alli)

Tuberose (Sampangi)

Cactus flower (Chappathi kalli)

Datura (Oomatham poo)

DO YOU KNOW?

The Bethlehem Lily (Nishagandhi) is called the "Queen" of the flowers that bloom at night.

Identify and tick (✓) the animals that are active at night.
