Practice

Use repeated addition to find the total.

1. There are 5 groups. There are 3 chicks in each group. How many chicks are there altogether?

2. There are 4 bunches. There are 6 bananas in each bunch. How many bananas are there altogether?

3. There are ___ trays. There are ___ eggs in each tray. How many eggs are there altogether?

Teacher's Note:

Teacher can make children observe that repeated addition of even numbers is even but repeated addition of odd numbers is either even or odd.
