Unit 1

Materials Around Us

You will learn about

- Natural sources, man-made materials and things
- Matter - definition and properties

We are oranges. We grow on orange trees.

I am a basket. I am made of wood. Wood is got from trees.

VP3L28

We use many kinds of materials in our life. Nature is the source of all of them (e.g., tree). From these **natural sources** man makes many **materials** (e.g., wooden planks) which are used to make many other things (e.g., wooden basket).

Sources of Natural Materials

The sources of natural materials are plants, animals, rocks and soil.

Plants

Animals

Rocks and Soil
