PP7VEE

Valli and Chittu talk about names.

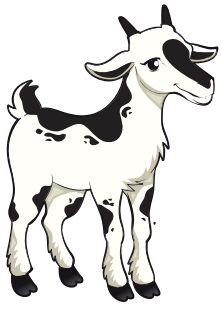

Hello Chittu and Mittu how are you?

We are fine.

Why do you call me Mittu and my sister Chittu?

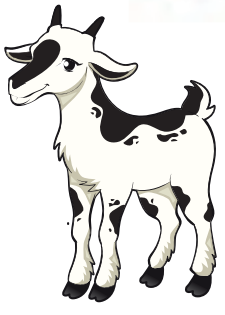

Oh! It is your name.

Why do we need names?

We need names to call people.

Does everything have a name?

Yes. People, places, animals and things all have names.

Note to the teacher: All naming words are **nouns**. Explain children that everything has a name. Give more examples for persons, places, animals and things.
