3.2 Symmetry

Symmetries in shapes and patterns.

Do your self

1. Take a piece of paper.
2. Spill few drops of ink on the paper.
3. Now fold the paper and press it.
4. You will get a symmetric figure.

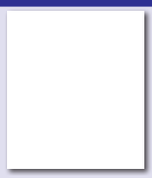

Definition

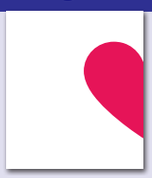

Symmetry means that one shape becomes exactly like another when you move it in the some way: turn, flip or slide.

Let us do

1. Take a sheet of paper and fold it.

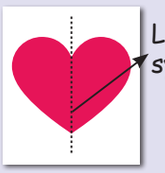

2. Draw any shape at the folded edge of the sheet.

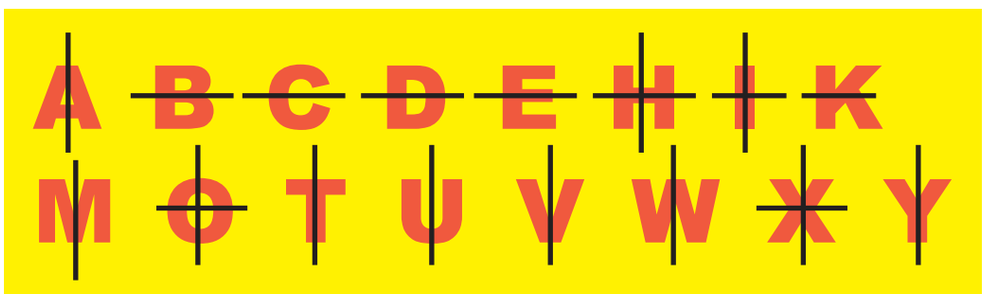

3. Cut the shape

4. Unfold it
