Let us know

100 centimetre = 1 metre
1000 metre = 1 Kilometre

Millimetre is the smaller unit of length.
Kilometre is the bigger unit of length.

Example:

millimetre (mm) centimetre (cm) metre (m)

Activity 5

Measure the length of ribbon by tape roll.

Raj ( ) cm Anu ( ) cm Ram ( ) cm Kavi ( ) cm

Measurements measured using standard units do not change from person to person.

Practice

Measure the length of following things by centimetre scale and write it in the table below.

( ) cm ( ) cm ( ) cm ( ) cm ( ) cm

Teacher's note: Teacher can guide the children to measure the things properly.
