I. Cleanliness

Mithra is watching TV with her parents. An advertisement in the TV shows a toilet with germs. Mithra asks her dad what they are. He explains to her about germs.

Do you know about germs?

Germs are microorganisms that affects our body. They are found in all the places. If we do not maintain cleanliness, the germs will infect us and cause many diseases to us.

1.Hand Washing

Dialogue between Shruthi and her mother.

(After playing outside, Shruthi returns home)

Shruthi: Mom, I am so hungry. Give me something to eat.

Mother: Shruthi, go and wash your hands.

Shruthi: No Mom, I want to eat first. Then I wash my hands.

Mother: No, you must wash your hands.

Shruthi: Mom, is it necessary to wash hands before eating?

Mother: Yes, look at your hands. Is it clean or dirty?

Shruthi: My hands are too dirty, Mom.

Mother: Where does the dirt stick in your hands?

Shruthi: Under the nails, in the ridges...

Mother: Yes, these are the places where the germs are hiding.

Shruthi: Is it so?

Mother: Yes, it is important to wash your hands. It is a simple habit that keeps you healthy.

(Mom starts explaining the importance of simple hand washing technique)
