EARS

- Avoid loud noise.
- Do not listen to music at higher volume while using Earphones or Headphones.
- Do not clean ears with ear buds.
- Dry your ears after taking bath.
- Cover your ears while swimming and bathing.
- Use earplugs or ear muffs (when you are exposed to loud sound).
- Consult a doctor if you have pain in ear.

Hearing loss can not be prevented always. But hearing loss due to exposure to loud noises can be avoided.

Do you know?

Noise levels are measured in decibels (dB).
Any sound over 85dB can be harmful to us.

NOSE

- Do not clean your nose by inserting any object into it
- If the nose is blocked due to cold it is better to use steam to clear it.
- Do not pick your nose.

TONGUE

- We should clean our tongue daily with the tongue cleaner while brushing our teeth.
- A dirty tongue causes bad breath.

SKIN

- Always use a mild soap.
- Keep your skin dry and clean.
- Dry your skin by rubbing gently with a clean cloth.
- Consult a doctor when you have itching, skin injury or infection.
