Preface

The English Language textbook has been designed to enable a fun filled and engaging experience in learning the language. The approach allows for a plenty of practices in the four language skills. It focuses on structure practice and vocabulary enrichment through a variety of language learning activities. These activities evoke interest and engage practice in the language and thus lead to retention.

As per NCF 2005, language is learnt effectively when it is taught with exposure in meaningful context rather than as a subject. In accordance with this, the textbook has been drafted with themes related or familiar to children. The units provide space for effective individual and pair work and thus allow the teacher to focus on time management in multi-level classrooms.

The textbook has been prepared with plenty of colourful illustrations to enhance its visual appeal for children. We hope that children will enjoy handling this textbook.
