In 1st grade, you have studied number names up to 20. Now we will learn names of larger numbers. You have already learnt the number-names from 1 to 20 and also number-names of 30, 40, 50, 60, 70, 80, 90 and 100.

How do we name the larger numbers. Let us discuss the following example.

EXAMPLE

Write 1283 in words.

Solution

First write the given number in expanded form and write the name of each number below it and then combine that name.

1283 = 1000 + 200 + 80 + 3

= One Thousand + Two hundred + Eighty + Three

So the number-name of 1283 is one thousand two hundred and eighty three.

Exercise 2.1

A. Write the following number in words.

(i) 1006 - _____

(ii) 6327 - _____

(iii) 9097 - _____

(iv) 10,000 - _____

(v) 8906 - _____
