3. Kavin has four cards **9** **7** **4** **6**

a. List down all 3-digit numbers possible with these cards without repetition.

b. What is the largest 4-digit odd number that can be made without repeating the numbers?

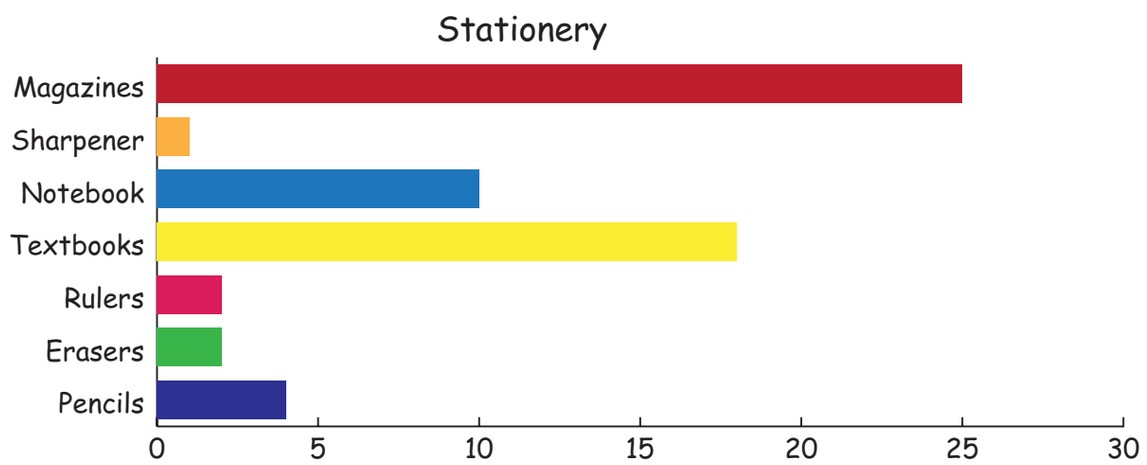

4. There are 6 sprinters A_1 A_2 A_3 A_4 A_5 A_6 (an athlete who runs fast in short race). List out the possible combinations that they win the 3 medals gold, silver and bronze.

6.2 Collect and represent data in the form of bar graphs.

Bar Graphs

Amirtha was given a task of maintaining record for stationery items in her home. She started counting one by one but after a while she lost her counting and worried. Then her friend Vani came to help her. First she grouped these items as pencils, erasers, rulers, text books, notebooks, magazines, sharpener. Then Amirtha counted and wrote them easily as follows.

Stationery Items	Numbers	Stationery Items	Numbers
Pencils	4	Notebooks	10
Erasers	2	Sharpener	1
Rulers	2	Magazines	25
Text books	18
