2. Plateaus

There are three plateaus in Tamil Nadu namely Bharamahal plateau, Coimbatore plateau and Madurai plateau. There are many small hills between these plateaus. Chennimalai is one among those hills in Erode.

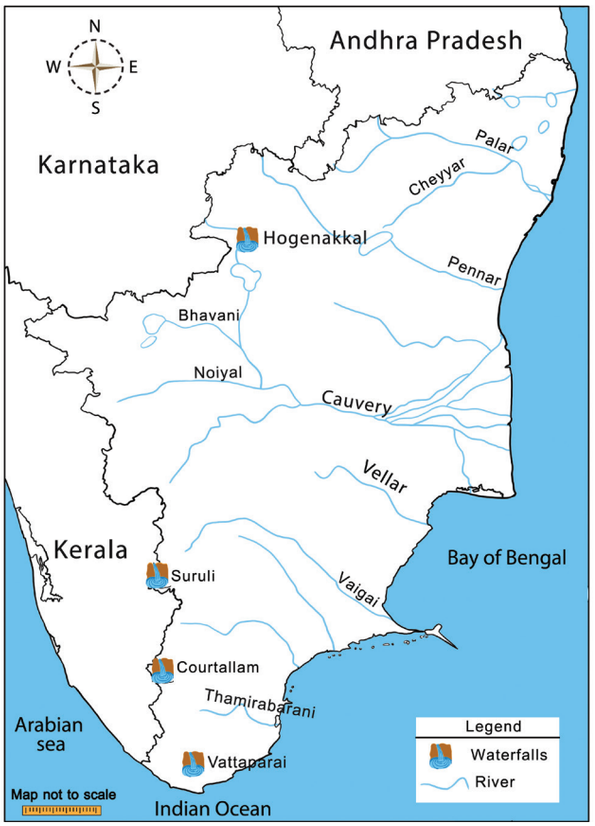

3. Plains

Plains in Tamil Nadu can be divided into river plains and coastal plains.

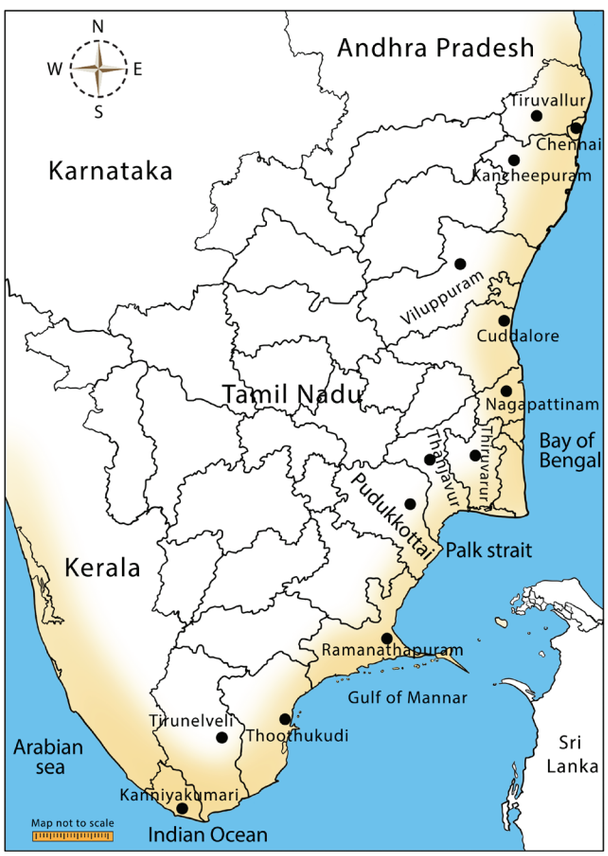

a) River plains

Rivers Palar, Cheyyar, Pennar and Vellar form the Northern plains. The middle river plain is formed by Cauvery and its tributaries. River Vaigai and Thamirabarani form the Southern plains.

River Cheyyar is a tributary of River Palar. It is a seasonal river that flows through the district of Tiruvannamalai.

Coastal areas of Tamil Nadu

b) Coastal plains

Coastal plains of Tamil Nadu are also called Cholamandalam plains which extend from Chennai to Kanniyakumari.

4. Coasts

Tamil Nadu has the third longest coastline in India. The coastal region extends from Chennai to Kanniyakumari. Pamban island forms a part of Ramanathapuram. It separates Gulf of Mannar and Palk strait. 13 districts share the coastline.

The notable beaches of Tamil Nadu are:

a) Marina Beach, the second longest urban beach in the world.

b) Rameswaram beach is famous for its beautiful view.

c) Kanniyakumari beach is famous for its beautiful views of sunrise and sunset over the water.
